Coding

## PERSONAL PROJECTS

### My Portfolio (07/2024 - 08/2024)

- I designed my personal portfolio from scratch using HTML, CSS, and JavaScript, demonstrating my skills in web development and design

### Blogs (08/2024 - Present)

- I write blogs on dev.to, focusing on new innovations and solutions in information technology.

### Python (09/2023 - 09/2023)

- I developed a Snake game and a number guessing game using Python, along with other projects like a simple text-based RPG, a Tic-Tac-Toe game, and a basic calculator. These projects helped enhance my programming skills and deepen my understanding of the language.

### Database Management System (Microsoft Access) (02/2022 - 04/2022)

- I designed and created a database management system using MS Access for an attendance management system, applying the skills I learned during my intermediate studies.

### C++ (07/2022 - 07/2022)

- reate a console-based Tic-Tac-Toe game with a two-player mode, focusing on implementing game logic and user interactio

## CERTIFICATES

### Project Mangement (01/2023 - 02/2023)

Completed my project management course from Udemy to learn about project management systems

### Web Development (08/2022 - 10/2022)

Completed my web development course from Udemy deep learning of HTML, CSS, JAVASCRIPT

## LANGUAGES

Urdu/English

Full Professional Proficiency
