Islamabad, Pakistan | +923125608691 | anasbinjaved13@gmail.com | anas.net

Having completed 13 years of education in computer science, I possess a strong foundation in both basic and advanced concepts. Currently, I am pursuing a bachelor's degree in computer science to further develop my skills and advance my career in this field.

EDUCATION

Bachelor of Science in Electronics and Computing

- Distinguished member of the university's coding society.
- Member of University's electronics society.

FSC (Computer Science)

- Created a class attendance database in Microsoft Access.
- Won a C++ coding competition in college coding event.

Matriculation in (Computer Science)

- Build my skills in C programming and digital logic design to an advanced level.
-

EXPERIENCE

- **Seminars and Presentations:** Conducted seminars on various topics in electronics and computing, showcasing an ability to communicate complex technical concepts effectively.
 - **Coding Competitions:** Actively participated in and won a C++ coding competition during a college event, demonstrating strong problem-solving skills and proficiency in programming.
 - **Project Development:** Developed a class attendance database using Microsoft Access as part of a practical project, illustrating experience in database management and software development.
 - **Academic Events:** Engaged in coding competitions and computer science expos, enhancing practical knowledge and networking within the field of computer science and electronics.
 - **Career Aspiration:** Eager to leverage my educational background and hands-on experience to pursue a career in the industry, contributing to innovative projects and advancing in the field.
-

SKILLS

- C, C++, Java, Python.
- Networking
- Html, CSS, JavaScript, React.
- Data Base Management System (Access Point)
- Raptor
- Algorithms and Data Structures.
